13-POINT OIL BURNER TUNE-UP

Professional preventative maintenance is strongly recommended on an annual basis. Maintaining your oil burner will help save over 10% on heating costs & add years to the life expectancy of this expensive equipment. Below is our 13-point tune-up:

- ✓ Inspect smoke pipe and chimney base
- ✓ Brush and vacuum heating surfaces
- ✓ Change oil filter
- ✓ Check combustion chamber
- ✓ Clean all strainers
- ✓ Clean fan and housing
- ✓ Check electrodes
- ✓ Test transformer
- ✓ Replace nozzle - set firing rate
- ✓ Lubricate all motors
- ✓ Drain expansion tank if necessary
- ✓ Wipe equipment and vacuum
- ✓ Adjust controls

30 GUARANTEED PARTS

(Total Replacement Value \$1,500)

Air Filters (Standard)
 Belts
 Boiler Gauge
 Burner: Air Tube, Coupling, End Cone, Flange with Gasket, Fan & Motor Ignition Transformer
 Cad Cell Eye/Cad Cell Complete
 Electrodes & Porcelains
 Electric Firomatic Switch
 Fan & Limit Control, Fan Bearings, Belt & Motor
 Firomatic Switch & Handwheels
 Fuel Pump & Fuel Pump Strainer
 Hot Water Limit Control
 Igniter
 Ignition Leads
 Master Relay Control
 Motor
 Nozzle Line & Adapters/Oil Filter
 Primary Control
 Thermostat Main House Zone
 Toggle Switch
 Pressure Trol
 and many more parts
 (Water parts, Copper piping, ect not covered)

PARTS AND LABOR COVERAGE

If your furnace or boiler requires service, the guaranteed parts and the labor to replace them will be covered at no cost to you. Routine maintenance & other non-emergency service will occur during our normal business hours.

YES, I WOULD LIKE TO SIGN UP FOR:

CANAL MINI STORAGE

Canal Mini Storage provides self-storage for individuals and businesses who need accessible, secure, reasonably priced storage space and parking. Individual units are accessed through an overhead door secured by your own lock. Drive right up to your storage unit's door for easy loading and unloading of your goods. Access available seven days a week, and we even store boats and RVs! Units are all over 8 feet high, and range in size from 5' X 5' to 10' X 30'

GENERAL CONDITIONS AND EXCLUSIONS

The service plan is available to automatic delivery customers who purchase their fuel oil and all heating systems from Canal Fuel through the term of the Plan and whose payments are in accordance with our payment and credit terms. The Service Plan becomes effective upon inspection and approval of your heating system and tank and when proper payment is received.

The term of the Plan is for a one (1) year period and will renew automatically every year unless terminated by either the customer or Company. The plan automatically terminates if the customer no longer purchases all of its heating oil from the Company. No credit will be issued if the Plan is canceled before the expiration date.

Repairs or services not covered by the Plan will be performed and charged to the customer at prevailing rates. If part is not covered by the Plan the labor required to replace that part will also be charged to the customer at the prevailing rate.

The Service Plan does not cover labor or materials to repair damage to the heating system or residence caused by the customer's neglect such as insufficient water for boiler, blown fuses or other failure of electrical system, improper thermostat settings or faulty thermostat, having heating system switches in the "OFF" position, debris build up in the air or venting systems and other causes related to the improper operation or maintenance of the heating system by the customer. Damage, repairs or replacement of parts or components caused by natural disasters, fire, flood, freezing, storm or weather conditions, power loss or surges, water damage, and fuel flow problems due to outside fuel storage are not covered by the Plan.

Company will provide service as soon as possible during regular business hours in non-emergency situations. Company will not be liable for any delay or failure to provide service due to conditions beyond its control such as natural disasters, labor disturbances or strikes, unavailability of mechanics or parts, failure or interruption of customer's electricity, inaccessibility of the heating system, storms, floods, or other severe weather conditions, or government laws or regulations.

The Service Plan only covers heating system parts and components specified in the Plan. Examples of components not covered by the Plan include boiler and furnace and related piping, underground oil storage tanks, above ground storage tanks, tanks with preexisting leaks, patches or unstable conditions, air conditioning systems, humidifiers, heat pumps, heat exchangers, hot water heating systems and air and venting systems. The Plan does not cover environmental clean up, property damage, waste disposal services or other damages and losses caused by a tank leak or system failure.

Customer agrees to release and hold Company harmless from all claims related to losses, costs, or damage to personal or real property caused by fire, explosion, flood, freezing, power loss or surges, oil leakage, and premises left unattended. Customer agrees that Company shall not be liable for any incidental, special or consequential damages incurred by customer or third parties. In the event that the residence is sold, the Service Plan is non-transferable.
